

# Weatherproof Mounting Boxes<sup>1</sup>

## Models 348/349/449

449

### Overview<sup>2</sup>

EDWARDS die-cast weatherproof backboxes are perfect for mounting a variety of EDWARDS signaling appliances such as bells, horns and sirens. They are made from die-cast aluminum and finished at the factory with a baked “Sage Gray” enamel finish. All boxes are shipped complete with a molded neoprene gasket. They all feature 3/4 inch tapped conduit entries.<sup>3</sup>

Three models are available:<sup>4</sup>

#### Catalog Number 348<sup>6</sup>

– fits four inch (100mm) 325 and 340T bells

#### Catalog Number 349<sup>8</sup>

– fits six inch (150mm) and 10 inch (250mm), 325 bells plus 5520D Horn/Siren

#### Catalog Number 449<sup>9</sup>

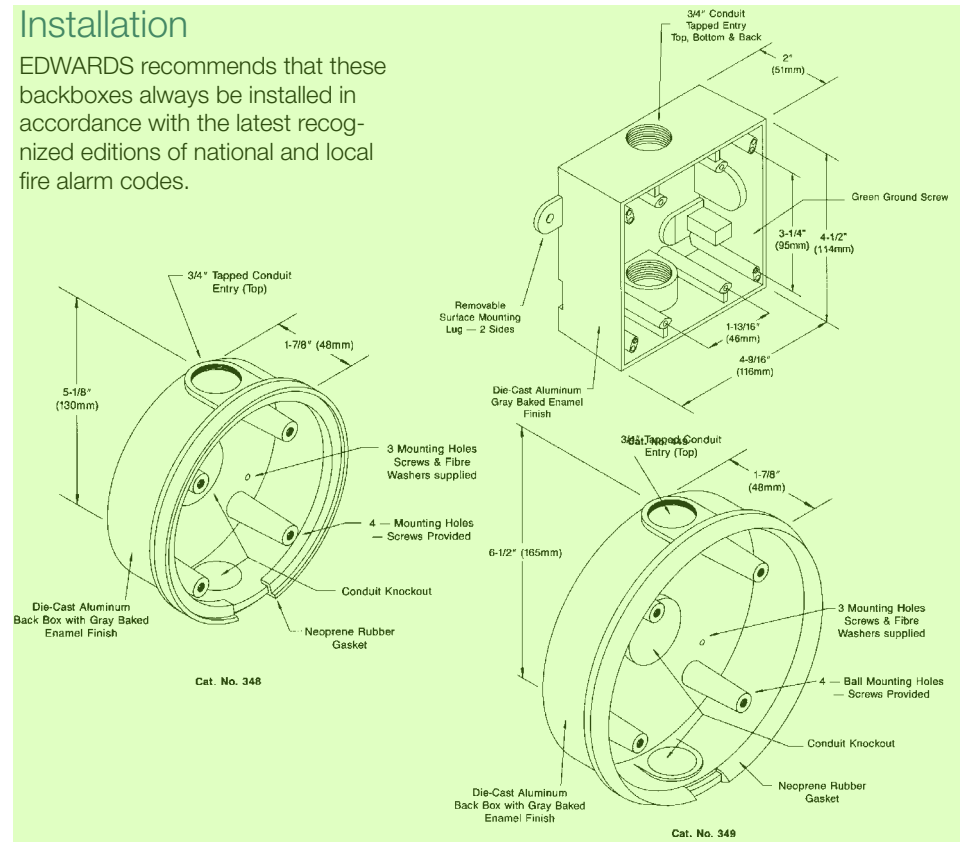

– fits six inch (150mm), eight inch (203mm) and 10 inch (250mm) 438 and 439 series bells and CS405 strobes.

### Standard Features<sup>7</sup>

- Die-cast aluminum<sup>5</sup>
- Surface mount
- Gray baked enamel finish
- Weatherproof gasket included

## Installation

EDWARDS recommends that these backboxes always be installed in accordance with the latest recognized editions of national and local fire alarm codes.
