# Graphic Annunciator<sup>1</sup>

EV Series Graphic Annunciators FSCS Series Smoke Control Stations

### Overview 2

ENVOY graphic annunciators and smoke control panels are designed to present complex status and control information in an easy-to-understand package. The design of ENVOY products permits users to rapidly determine system status and easily operate associated system controls. The addition of system LCD annunciators and remote microphones can turn ENVOY into a complete fire command station.

ENVOY EV series graphic annunciators display system information 4 using high intensity LEDs mounted behind the smoked Plexiglas® panel that displays the artwork. The ENVOY FSCS smoke control series replaces the Plexiglas® graphic panel with a gloss black finished steel panel. High contrast white graphics are placed on the panel along with the required switches and LED indicators, integrating the element of control directly "into the picture." Switches and LEDs can be mounted virtually anywhere on the graphic display itself. White artwork and text on a dark background is standard. Colored artwork is available as an option, to enhance building areas or individual zones. A variety of LEDs and switches are available to meet any display and control requirement.

Power ON, Trouble, and Signal Silenced LEDs; System Reset, Silence, Trouble Silence, and Drill push button switches are available as panel feature options. Other panel options include system LCD displays and remote microphones.

"ENVOY graphic panels are available in a variety of standard sizes. 6 Wall boxes are manufactured from 16-gauge cold rolled steel and finished with a textured black baked enamel. Panels can be surface mount or semi-flush mount. When semi-flush mounting, optional trim kits provide a finished look to the installation.

#### Standard Features 7

High contrast lines and text

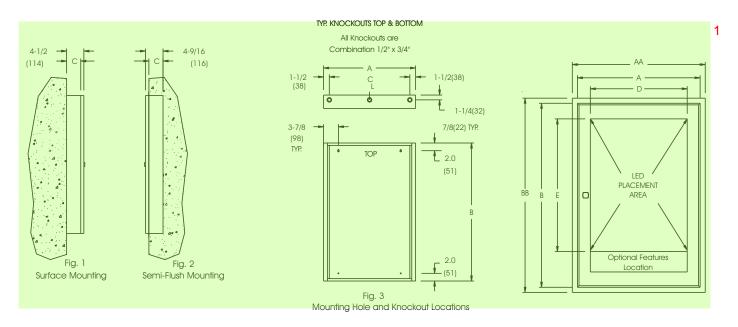

8

- LCD display capability
   Allows display of custom text messages in graphic annunciator enclosure.
- Smoke control option
- Agency listed with Edwards control panels
- Surface or semi-flush mounting Semi-Flush mount with optional trim.
- Field installed modification of EV series graphics with optional graphic transfer kit.
- Left or right hand hinging of outer door

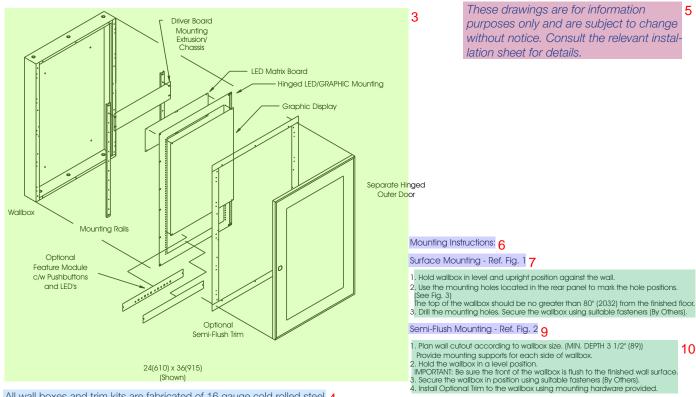

# Application 9

ENVOY graphics are designed for indoor mounting in areas where easy-to-understand annunciation and/or control is required such as lobbies, control rooms, and building management areas. The flexibility of the ENVOY design and wide variety of options makes ENVOY suitable for everything from a simple graphic annunciator to complex graphic smoke control and fire command stations, complete with audio paging capability.

# Installation and Mounting

For Use With	WALLBOX	FINISH	A in(mm)	B in(mm)	C in(mm)	TRIM	AA in(mm)	BB in(mm)	MAXIMUM RECOMMENDED # OF LED'S	D in(mm)	E in(mm)
EV1 and FSCS-1	EV1B	TEXT, BLACK	24 (610)	18 (458)	3.5 (89)	EV1T	26 (660)	20 (508)	40	17.5(445)	10.5 (267)
EV2 and FSCS-2	EV2B	TEXT, BLACK	24 (610)	24 (610)	3.5 (89)	EV2T	26 (660)	26 (660)	72	17.5(445)	15.75 (400)
EV3 and FSCS-3	EV3B	TEXT, BLACK	24 (610)	36 (915)	3.5 (89)	EV3T	26 (660)	38 (965)	100	17.5(445)	26.25 (667)
EV4 and FSCS-4	EV4B	TEXT, BLACK	36 (914)	48 (1219)	3.5 (89)	EV4T	38 (965)	50 (1270)	120	30 (762)	40 (1016)

All wall boxes and trim kits are fabricated of 16 gauge cold rolled steel 4 finished in textured black baked enamel.

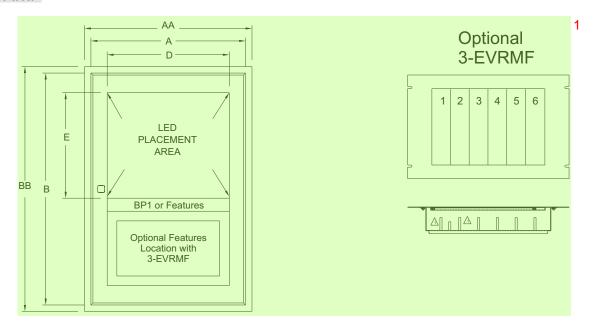

- 2. Use the mounting holes located in the rear panel to mark the hole positions.

#### General Notes: 11

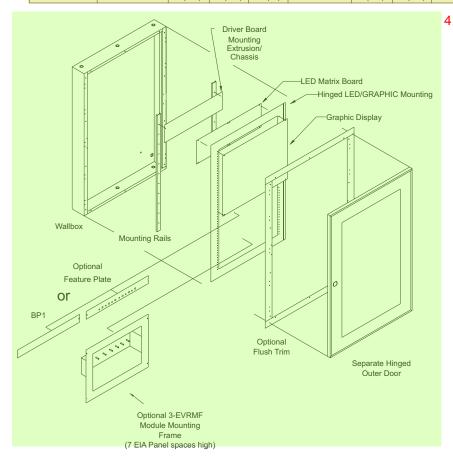

1. Install in accordance with National and Local Installation Standards.

10

# 3-EVRMF

Wallbox	Finish	А	В	С	TRIM	AA	BB	Typical recommended	Typical recommended	D	E	2

These drawings are for information purposes only and are subject to change without notice. Consult the relevant installation sheet for details.

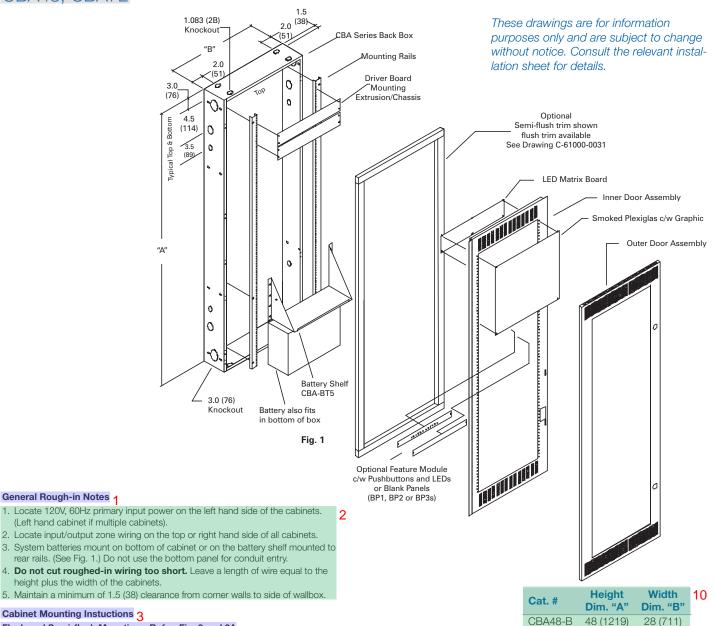

#### Notes: 5

Remove these two spacers when 6 a 3-LCD + 3-ANNCPU3 mounts in slots 1 & 2 ONLY.

- Mounting Space in 3-EVRMF for 7

   (1) 3-ANNCPU3 with a 3-LCD and up to 4 Control/Display Modules or up to 6 Control/Display Modules.
- 3. No Driver Modules can mount on the rails behind the Module Mounting Frame.

#### Cabinet Mounting Instuctions 3

General Rough-in Notes 1

#### Flush and Semi-flush Mounting - Refer Fig. 2 and 2A 4

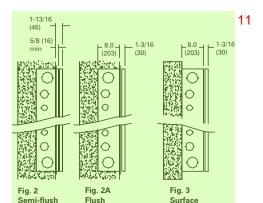

- 1. The wall cutout for flush and semi-flush cabinet installation should be 1.0 (25) greater than overall cabinet dimensions (min. depth 8.0 (203)). Provide supports for each side of cabinet.
- 2. The front of the semi-flush mounted cabinets should be a minimum of 5/8 (16) from the finished wall surface.
- The front of the flush mounted cabinets should be flush to the finished wall sur-3. face
- 4. Hold the cabinet in a level position.
- 5. Secure the cabinet in position using suitable 1/4 (6.0) fasteners.

#### Surface Mounting - Refer Fig. 3 6

- 1. Hold cabinet in level and upright position against the wall.
- 2. Use the mounting holes located in the rear panel to mark the hole positions. The top of the cabinet should be no greater than 80 (2032) from the finished floor.
- 3. Drill the mounting holes. Secure the cabinet using suitable 1/4 (6.0) fasteners.

# Doors and Trims - Refer Fig. 18

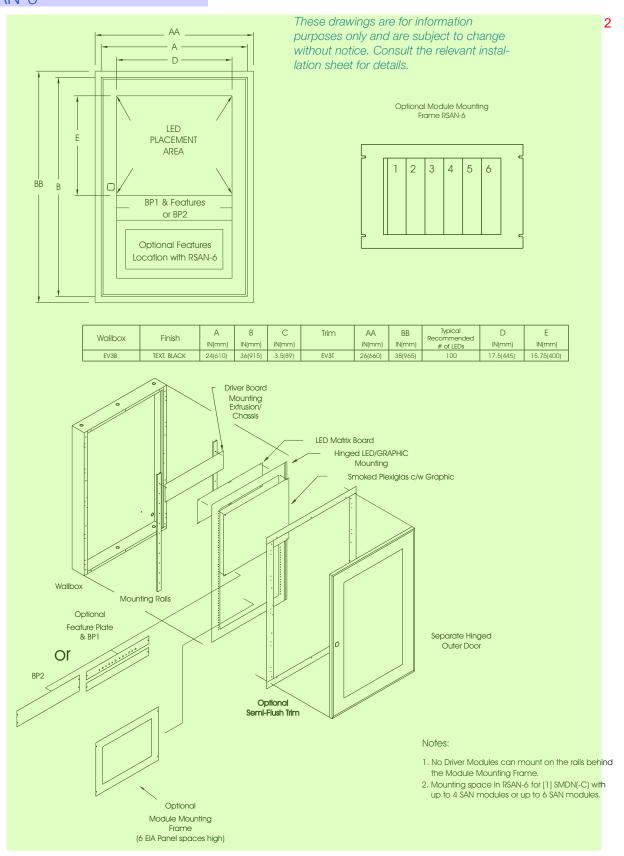

- 1. Install doors and trims using mounting hardware provided.
- 2. Outer doors mount with either a Left or Right hand opening. Left hand hinged door shown.

# Engineering Specification 1

Provide a <semi-flush> <surface> mounted graphic <annunciator> <smoke control> panel at the location(s) specified on the plans. The panel shall be provided with a key locked see through door, capable of left-hand or right-hand mounting. The graphic <annunciator> <smoke control> panel shall be UL, and ULC listed, and operate on nominal 24 VDC that shall be battery backed up. Communication between the annunciator and the host control panel shall be digital. No individual point wiring shall be permitted.

Annunciator series graphics shall be white artwork on a smoked Plexiglas® background. The annunciator graphic display shall utilize back-lit using high intensity LEDs, located as shown in the shop drawings. LEDs shall be capable of being independently controlled by the host system. Smoke Control Series graphics shall be white artwork on a gloss black steel background. System control switches and high intensity LEDs shall be mounted directly on the graphic, as shown in the shop drawings. Each switch and LED function shall be independently identified by the host system; and function as described elsewhere in this specification. It shall be possible to update the graphic artwork in the field with the need to replace the entire graphic artwork.

The following System controls and indicators shall be provided on the <annunciator> <smoke control> panel: Power ON, Trouble, and Signal Silenced LEDs; System Reset, Silence, Trouble Silence, and Drill push buttons.

< It shall be possible to annunciate text messages via LCD display mount-5 ed in the graphic <annunciator> <smoke control> enclosure.>

The graphic <annunciator> <smoke control> panel shall provide an inte-6 gral remote microphone for system paging.>

The graphic <annunciator> <smoke control panel> shall be Edwards 7 ENVOY series.

# Driver Electronics Reference 9

The following cross-reference lists the suggested driver electronics 10 to be used with Envoy series products.

Cat #	Description	System
3-ANNCPU1	Annunciator CPU - Supports up to eighteen 3-EVDVR(A) modules	3
3-EVDVR	Driver, 24 LEDs & 12 switches	3
3-EVDVRA	Driver, 24 LEDs & 12 switches w/cables for third party annunciators	3
3-EVPWR	Power Supply - supports up to eighteen 3-EVDVR(A) drivers	3
3-EVPWRA	19" rack mount w/3-EVPWR & room for one 3-ANNCPU1 for third party annunciators	3
3-EVDVRX	19" rack mount for up to three 3-EVDVRAs for third party annunciators	3
SAN-CPU	Annunciator CPU & Power Supply	2,4
SAN- COMM/D	Common Control Module	4
SDR-32	Driver, 32 LEDs	2,4
SIN-16	Input Interface - 16 Switches	2
RSA4-CPU	Annunciator CPU	4
RSA4-COM/D	Common Control Strip	2,4
SRAx	Annunciator CPU. Supports up to 6 XGD cards	5
XGD	Driver, 24 LED's and 12 Switches	5
EV24VDC	Individual LEDs wired with LED positive leads connected together	1

1 = Direct wired 24 VDC LEDs. 2 = EST2/IRC-3/FCC. 3 = EST3, 4 = LSS4, 5 = QuickStart

FSCBA72	17.5"W x 63"H (445mm x 1600mm) (See Note 2)	120 & up option #1,2,3,4	48 & up options # 5 thru 13		One & up 3-ANNCPU1s, one & up 3-EVPWR & eleven & up 3-EVDVRs	

2. The EVCBA72/FSCBA72B provide mounting space equivalent to two EV3 or two FSCS-3 units mounted in a single cabinet.

Notes: 14

1. The density of individual graphic LED and switch layouts may change the quantities shown. LED spacing should be ½" apart on center and not less then 3/16". All 16 switches, text and symbols should be kept ½" away from viewing area border. In-graphic toggle switches (options 3, 4, & 5) require 114" centers.

#### **Options**

Options		
Feature / Option #	Catalog #	Description
1	EVZLED	Back Lit Graphic LED - Red, Yellow, or Green for EV series graphics
2	EVBLED	Back Lit Graphic LED - Blue for EV series graphics
2	EVZWLED	Back Lit graphic LED - White for EV series graphics
3	EVZSLED	In-graphic LED - Red, Yellow or Green for FSCS series graphics
4	EVZSBLED	In-graphic LED - Blue for FSCS series graphics
4	EVZSWLED	In-graphic LED - White for FSCS series graphics
5	EVSC3-21	In-graphic 2-Pos Toggle Switch for FSCS series graphics - ON wired to driver input (1 point)
6	EVSC3-22	In-graphic 2-Pos Toggle Switch for FSCS series graphics - ON & OFF wired to driver inputs (2 points)
4	EVSC3-32	In-graphic 3-Pos Toggle Switch for FSCS series graphics - ON & OFF wired to driver inputs (2 points)
5	EVSC3-33	In-graphic 3-Pos Toggle Switch for FSCS series graphics - ON, AUTO & OFF wired to driver inputs (3 points)
9	EVSC3R-21	In-graphic 2-Pos Rotary Switch for FSCS series graphics - ON wired to driver input (1 point)
10	EVSC3R-22	In-graphic 2-Pos Rotary Switch for FSCS series graphics - ON & OFF wired to driver inputs (2 points)
11	EVSC3R-32	In-graphic 3-Pos Rotary Switch for FSCS series graphics - ON & OFF wired to driver inputs (2 points)
12	EVSC3R-33	In-graphic 3-Pos Rotary Switch for FSCS series graphics - ON, AUTO & OFF wired to driver inputs (3 points)
13	EVSC3R-44	In-graphic 4-Pos Rotary Switch for FSCS series graphics - all positions wired to driver inputs (4 points)
14	EVKE	Enable Key switch
15	EVPLED	Annunciator Power On LED - EV & FSCS series
16	EVTLED	Trouble LED - EV & FSCS series
17	EVSSLED	Signals Silenced LED - EV & FSCS series
18	EVRP	Reset Push Button - EV & FSCS series
19	EVSSP	Signal Silence Push Button - EV & FSCS series
20	EVTS	Trouble Silence Switch - EV & FSCS series
21	EVDRILL	Drill Switch - EV & FSCS series
22	EVLT	Lamp Test Push Button - EV & FSCS series
23	EVSP	Spare Push Button - EV & FSCS series
24	EVLTPS	Lamp Test Power Supply - EV & FSCS series - Required if lamp test option used on type 1 (24VDC) system.
